***Make it ... Take it!!! On YOUR embroidery machine! Rarely or never use it? This class is for you!***

**DESCRIPTION:** Learn the basics of machine embroidery in this half-day class by completing two projects. Both projects can be done on any embroidery machine\* with a 4"x4" hoop. (There are a few very OLD models which we will NOT be able use for this class) First, you will make two quilt labels...one for you and one for our guild's community service. Going forward, you will be ready to make labels whenever you have some free time! The second project is a SIMPLE "in the hoop" small zipper bag. Perfect for lipstick or sweetener packs. Skills will lead you to many projects.

#### **REQUIREMENTS:**

- Embroidery machine in good working order, including embroidery arm, any model\* (There are a few very OLD models which we will NOT be able use for this class)
- All machine manuals, cords and accessories
- 4" x 4" hoop
- Curved embroidery snips
- Scissors capable of cutting 2 layers of batting and fabric
- Several colors 40 wt. embroidery threads
- Two bobbins for your machine of white bobbin weight thread (email instructor if unsure)

Communication is required by email about your machine to assess how to load designs onto your particular machine as they are all different. Please send an email with the make and model of your embroidery machine to [judykavanagh03@gmail.com](mailto:judykavanagh03@gmail.com) when you have registered for this class. Instructor will provide a method to get designs onto your machine and so MUST have this information as soon as possible.

**There are a very few, very OLD models which we will NOT be able to use for this class. They are rare and cannot have designs uploaded by modern methods. Please email instructor with any questions!**
