

**CLASS TITLE:** MODERN STAINED GLASS QUILT      **DAY/TIME:** THU all day  
**INSTRUCTOR:** Judy Kavanagh      407-625-0949  
**SKILL LEVEL:** Confident Beginner      **NO FEE**

**DESCRIPTION:**

**SUPPLIES:**

- Routine sewing and cutting supplies
- Sewing machine, manual, cord
- Twin sewing needle (shank that fits your machine) width: 4mm is perfect. 3 mm will also work. Needle size doesn't matter as much, 75, 80, even 90 will work.
- Bias tape makers. You need two: ¼" and either ½" or ¾" (I like the ¾)
- Piecing thread of your choice, neutral color
- Thread that matches your dark fabric in black, navy, dark gray, brown
- Six safety pins (or the number of blocks you plan to make)
- Scrap paper or post it notes
- Batting. Small crib size for class project or larger if you plan a bigger end project. Yes bring to class. You can always connect batting.
- Quilt backing. Yes, bring to class.
- You will need binding after the class for traditional or or other techniques.
- Fabrics: Pressed.

1. **Dark fabric.** Black, navy, dark gray, brown. (This is for the lead lines in the stained glass. ½ yard, more if you are making a large quilt. Some scraps are ok as we will be cutting small strips.)

\*Cut several ½” strips for making the ¼” bias.

\* If you have a ¾” maker, cut a strip 1 3/8” strip. If you have the ½” maker, cut a 15/16” strip. Not both wider strips

**OPTION:** You can also buy ¼” double fold bias tape and bring some fabric of the same color to make the ¾ or ½” strips. I think self made strips look nicer, match better and is less expensive.

2. **Colored fabrics.** At least six pieces of different colored fabrics. See below tips.  
Do choose fabrics that go well together, consider one “zinger”. For our stained glass look tone on tone or solids look the best.

Decide how many blocks you want to make. That is how many fabric pieces you need. For class we will make a 6 block wall hanging or table runner (2 x 3 or 1 x 6), so you need 6 pieces of fabric. 9, 12, 16, 20 block projects, using that number of fabric pieces. You can repeat some fabrics if using 12, 16, or 20 fabrics

Fabric can be pre-cut fabric pieces such as 10” layer cake or 18x22” fat quarters. You can also use yardage to cut any other size: 12”, 15”, 18” squares. Be aware that fat quarters will result in a rectangular block and squares will yield square blocks. Block sizes will vary depending on the size piece you start with and number of cuts you make.
